

California craft cannabis for the hash market.

Prime Origins is building a premium hash house with two origins of supply: appellation-grade, sun-grown cannabis cultivated at Vista Ranch in Anderson Valley, Mendocino County — and authentic traditional Moroccan hash imported through established partners operating inside Morocco's regulated framework (ANRAC). Every batch is sold with verifiable provenance: certificates of analysis, batch records and chain-of-custody documentation by default.

WHAT WE DO

Build

A premium hash house: sun-grown, appellation-certified cannabis processed into craft hash, rosin, flower jars and pre-rolls — alongside an import line of traditional Moroccan hash.

Why now

Hash and solventless concentrates are the fastest-growing premium category in cannabis, and Morocco's regulated framework has opened a legal route for traditional hash for the first time.

Why we win

Our founding team built California's cannabis appellation system, our Moroccan partners supply heritage product no domestic competitor can copy, and provenance is documented on the Prime Origins platform.

TWO SUPPLY ENGINES, ONE BRAND

CALIFORNIA · CULTIVATE

Vista Ranch, Anderson Valley

- 60,000 sq ft licensed canopy — full-term outdoor and hoop house
- Navarro River Cannabis Appellation — certified sun-grown terroir
- Regenerative methods: smart pots, engineered soil, watershed restoration
- 2,094 lbs bud + 837 lbs trim projected, graded into flower, rosin, hash and pre-rolls

MOROCCO · IMPORT

Traditional Moroccan hash

- Established partner farms inside Morocco's regulated framework (ANRAC)
- Centuries-old craft from the world's most recognised hash origin
- Documented chain of custody — COAs, batch records, export files
- A heritage product line domestic competitors cannot replicate

WHY HASH, WHY NOW

Hash is the premium category

Authenticity sells

Morocco just opened

Solventless hash and rosin command top per-gram prices — \$35/g hash, \$44/g rosin in our model.

Appellation-certified sun-grown commands ~30% premium over average California outdoor.

A formal regulated export route from the world's most famous hash origin — first-mover product.

PHASE 1 REVENUE PLAN — 18 MONTHS (CALIFORNIA OPERATIONS)

Pre-rolls	398,931 units @ \$13	\$5.19M
Rosin & concentrates	56,991 g @ \$44/g	\$2.51M
Craft hash	66,489 g @ \$35/g	\$2.33M
Quarter-oz flower jars	40,203 units @ \$56	\$2.25M
Agritourism & seeds	farm stays, workshops, genetics	\$0.29M
TOTAL 18-MONTH REVENUE PLAN		\$12.57M

Volumes and pricing from the Vista Ranch Phase 1 cultivation model. Moroccan import revenue not yet modelled — pure upside. Projections are illustrative, not guaranteed.

WHERE THE \$5.0M GOES

California cultivation & facility build-out	\$1.75M · 35%
Moroccan import partnership & first inventory	\$1.25M · 25%
Licensing, compliance & import permits	\$0.75M · 15%
Brand, sales & distribution	\$0.60M · 12%
Working capital & operating reserve	\$0.65M · 13%

EXECUTION ROADMAP

M1–3 · Secure	Close the round, finalise licences, prepare Vista Ranch for planting, sign Moroccan import agreements.
M4–9 · Build & grow	Plant and cultivate the first full season; complete processing infrastructure; first Moroccan shipments landed.
M10–18 · Sell	Harvest, grade and process into hash, rosin, jars and pre-rolls; launch both lines into licensed retail.
M18+ · Scale	Expand canopy and import volumes, deepen retail relationships, grow the provenance platform.

LEADERSHIP

Oliver Triggs	CEO · Co-Founder	12+ yrs corporate finance incl. BDO Corporate Finance; Africa land & hemp ventures.
Justin Calvino	Partnerships, Licensing & Ops · Co-Founder	Founder, Mendocino Appellations Project; co-founder, Emerald Exchange.
